

VERITAS FIRE PROTECTION & WET SERVICES

With the ever changing construction landscape, buildings are required to have more flexibility in their use cases in order to accommodate a variety of functions and activities. Adaptability and innovation of their Fire Protection Systems, is of critical importance.

Veritas Fire Systems presents a future-proof solution, that conforms to regulatory standards, whilst providing a safe work environment to all occupants.

Veritas Fire Systems' involvement in both local environments and collaborations across the African continent, has allowed us to grow a diverse range of experience, across the Fire Engineering sector.

Fire Protection and Engineering is a highly dynamic field covering a range of disciplines (extinguishers hose reels / gas detection and suppression / sprinkler systems).

- ◆ Project Management
- ◆ In House Piping Fabrication Capabilities
- ◆ Fire Protection Panels
- ◆ Health and Safety Training covering topics including, Working at Heights, First Aid and Fire Fighting.

SERVICE & MAINTENANCE

At Veritas Fire Systems, we believe that Maintenance and Service has far broader application than merely overhauling equipment. It is about response times, problem solving and our commitment to you, our client. In order to implement the comprehensive cover offered, we have dedicated teams of Maintenance and Service Engineers available 24 hours a day, 365 days a year to support our customer base.

Formal Maintenance contracts are tailored to meet individual needs that may range from an annual service audit to complete turnkey project solutions. Service Level Agreements cover all types of fixed Fire Protection and Detection Systems, Sprinkler Systems, etc.

Workshop

All maintenance services for the fire extinguishers are conducted from our SABS certified workshop. Our workshops houses different sections where fabrication, rework and servicing takes place. A few standard processes that take place in our workshop consist of pressure testing, stripping and inspection, nitrogen pressurizing, repainting and reconditioning, as well as labelling and leak testing.

Inspection, Testing & Maintenance

We at Veritas, conduct performance inspection, testing, refurbishment, system upgrades as well as certification of all essential fire services to meet the latest local and international standards.

Veritas Fire Protection Systems provides 24 hour support as well as after sales support, to help deal with any issues and/or malfunctions of any fire system. Detailed maintenance reports are provided wherever necessary.

Project Management

Veritas Fire Systems has a dedicated team of in-house project managers who have experience across all sectors within the Fire Industry. Our Portfolio managers plan, organize, executed and monitor timelines, to ensure deliverable are met effectively and within budget.

OUR VISION AND VALUES

Veritas Fire Systems is a client focused business, which provides future proof solutions within the Fire Safety Sector in South Africa. With stringent regulatory requirements applied to buildings across all sectors (Commercial, Industrial and Residential), ensuring your site is compliant and conforming to these standards, is Veritas Fire Systems' primary focus. Through application of industry knowledge, expertise and experience, our engineers are able to formulate and structure solutions, that are efficient, effective and cost optimised.

Always looking out for our Client's best interest

Our entire business is based on this philosophy. We strive to optimize projects to the benefit of the Client's business.

Uncompromising Integrity

Integrity, Honesty, Truth, Trust and Reliability is part of the core values of our company. We respect local practices and customs in the communities that we operate in. We are strongly against any form of corruption.

Always be Safe

Health and Safety is at the centre of our business and we are committed to the highest standards. We respect all stakeholders on our projects including the communities in which we work.

Independence

VERITAS FIRE PROTECTION SYSTEMS is independent of any technology supplier or engineering contractors.

VERITAS FIRE PROTECTION SYSTEMS is a **level 1 rated contributor to broad based black economic empowerment (BBBEE)**. As a result, our clients are entitled to claim 135 % of the value spent on our services as BEE procurement. VERITAS Engineering is a proudly South African, **100% black owned enterprise**.
